

YADE - Documentation

Presentations

- [YADE Architecture Guide](#)

Tutorials

- The [YADE tutorials](#) provide a basis for learning how to use the YADE Client via the Command Line Interface mentioned above. They are intended to function as a Getting Started Guide before proceeding to increasingly complex examples.
- The tutorials describe operation of the YADE Client from the command line, e.g. by using a batch script. The other methods of operating the Client are:
 - using the [YADE API](#)
 - using the JobScheduler's [YADE JITL Jobs](#)

Technical Documentation

Status of Documentation

- The [Parameter Reference](#) explains the structure of configuration elements that is intended for future YADE releases.
 - **FEATURE AVAILABILITY STARTING FROM RELEASE 1.11**
 - YADE shifts from plain text configuration files (.ini format) to [XML Configuration](#) files.
 - For releases 1.9 and 1.10 the plain text configuration files are maintained.
 - For releases 1.11 and later XML Configuration will be available as documented.
 - YADE releases correspond to the following XSD schema file versions:
 - YADE releases 1.9 up to 1.11 use https://www.sos-berlin.com/schema/yade/YADE_configuration_v1.0.xsd
 - YADE releases 1.12 use https://www.sos-berlin.com/schema/yade/YADE_configuration_v1.12.xsd
- The [Parameter Reference for releases 1.10 and older](#) is available for reference.
- The [Parameter Mapping](#) is intended for users of YADE releases before 1.11 who want to benefit from the Parameter Reference documentation.
 - Mapping tables assist to identify XML configuration elements and plain text configuration items (.ini format).
- The [XML Editor](#) is schema-aware and can be used to create valid XML configurations.
- The [YADE - User Manual](#) is available and under continuous extension.

- [YADE - User Manual](#)
 - [YADE User Manual - Introduction](#)
 - [YADE User Manual - Information Sources](#)
 - [YADE User Manual - Getting Started](#)
 - [YADE User Manual - Architecture](#)
 - [YADE User Manual - Components](#)
 - [YADE User Manual - Installation](#)
 - [YADE User Manual - Using the YADE Client](#)
- [YADE - Reference Documentation](#)
 - [YADE - Reference Documentation - XSD Schema Reference](#)
 - [YADE - Reference Documentation - Parameter Reference](#)
 - [YADE - Reference Documentation - Parameter Mapping](#)
 - [YADE - Reference Documentation - API Reference](#)
